

Papatoetoe has an extensive military history and as part of the WWI centenary this exhibition is being held to outline the key aspects with displays and war memorabilia.

The quilt, created by Papatoetoe High School textile students was originally displayed for the "At Home At War" exhibition at the Torpedo Bay Navy Museum in August 2014.

The dioramas, courtesy of Nick Papadopoulos were created with considerable volunteer support.

We thank the following people/organisations for supporting the exhibition
